

Gothenburg, 10 August 2020

Press release:

Fredrik Wiking appointed new CEO of AB Regin

AB Regin's Board of Directors has appointed Fredrik Wiking as new CEO for Regin as of the 10th of August, 2020. Fredrik succeeds Olof Sand who has been acting CEO and now returns to his previous position as Chairman of the Board.

Fredrik Wiking has 20 years of experience in leadership positions. Prior to joining Regin, he was the President and CEO of Gunnebo Industries, a global leader in lifting- and material handling equipment. During his career he has also served as Executive Vice President, Head of Business Area Construction and Director of Business Development and Operational Control with Alimak HEK Group. He started his carrier with Bain & Company. Fredrik holds a master's degree in Business Administration from Stockholm School of Economics.

"We are very pleased that Fredrik Wiking will take on the position as CEO of Regin. Fredrik has a solid track record of leading successful transformation programs, developing organizations and generating growth, both organically and through acquisitions. In addition, he shares our vision of contributing to a sustainable future. Fredrik definitely has the capabilities to take Regin further ahead," says Olof Sand, Chairman of the Board.

"I am very excited to join Regin. We have a committed and talented team, a strong market position and an outstanding product portfolio. With a growing global interest in energy conservation and climate protection we are in an excellent position to contribute to a better energy future. I am looking forward to working with the team at Regin to take the company to the next level", says Fredrik Wiking.
