Letter of Compliance

RoHS Directive (2011/65/EG)

The RoHS (Restriction of Hazardous Substances) Directive prohibits the sale within the European Union of electronic equipment containing the following hazardous substances: lead, cadmium, mercury, hexavalent chromium, polybrominated biphenyls (PBBs), and polybrominated diphenyl ethers (PBDEs).

Through this certificate, Regin hereby ensures we have taken all appropriate steps to ascertain that no such substances are present in any available Regin brand products. We hereby ensure our full compliance with the RoHS Directive, as defined in Directive 2011/65/EG.

Sincerely,

Johan Ohlsson, Managing Director AB Regin
