

# Upgrade agreement

Safeguard your future using Regin's upgrade agreement

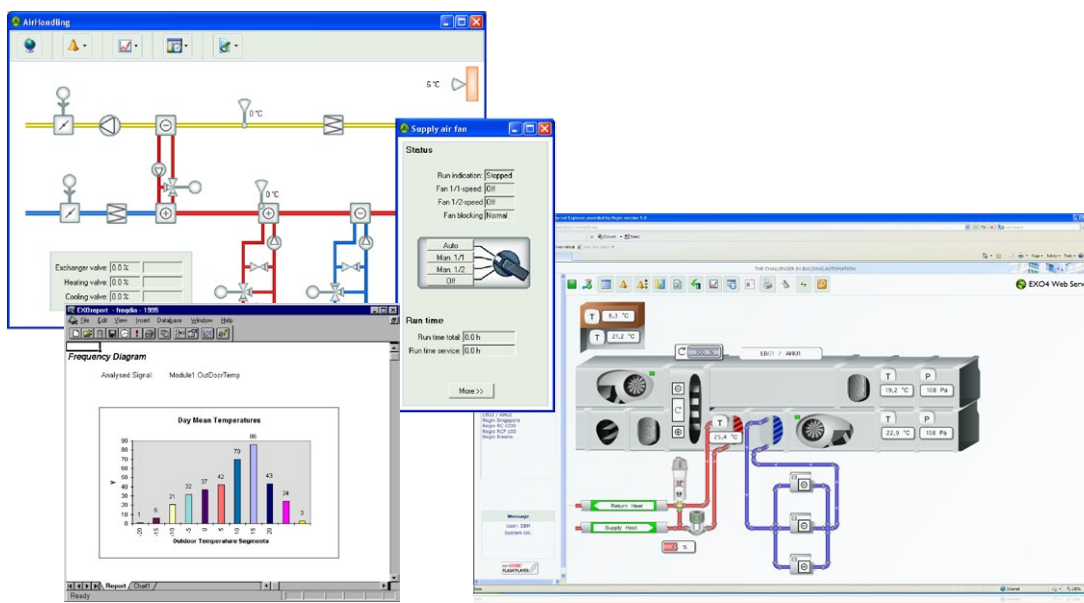

An upgrade agreement provides you with advantages

You will always have the latest Regin brand software versions, enabling you to feel safe in the knowledge that your programs will last you both now and into the future. At least once a year, we will also launch new functions which you can make use of directly.

## Campaign

When you sign an upgrade agreement in the spring of 2012 you will receive free of charge:

- access to EXOscada, the web-based operations and maintenance system of the future, when it is released
- the possibility to try Arrigo, Regin's web-based portal for energy monitoring and building maintenance, for one year.
